Technical Skills

- Fronted : Html,Css,JavaScript,react.js
- Backend: MYSQL
- Language : Java programming,

Soft Skill

- Communication Skills
- Leadership Quality
- Adaptability
- Time Management

Education Background

- Bachelor of Computer Applications(BCA)
  Gopal Narayan Singh University
  Percentage : 84.3%

- Intermediate , Science
  Sher Shah College , BSEB
  Percentage : 77.8%

- Matric
  Pragya Niketan Public School , CBSE
  Percentage : 87.4%

Hobbies

- Playing badminton
- travelling
- Listening music
- Painting
- learn new things

Language Known

- English
- Hindi

Career Objective

To obtain a challenging career in the IT industry and put all my efforts and knowledge which will enable to growth of myself and the organization goals and have a great working environment.

Projects

- **E-Commerce-Built with React.js,Css,Bootstrap.**
  Create a dynamic and visually appealing e-commerce website by leveraging the power of React.js for efficient front-end development, complemented with CSS and JavaScript for styling and functionality, and enhance the user interface with Bootstrap for responsive design and streamlined user experience.
- **Text Editor App-Built with React.js, javaScript, Html, Css**
  TextEditorApp is a web-based text editor offering font customization, color selection, undo/redo functionality, and case manipulation, providing a versatile platform for efficient text editing and formatting.
  . https://sandhyakumari543.github.io/-TextEditorApp/
- **My portfolio-Built with React.js**
  My portfolio is a curated showcase of my diverse projects, highlighting my proficiency in web and design to demonstrate my skills and passion for creating engaging digital experiences
- **Random Quote Machine - Built with React.js**
  A responsive application where clicking a button changes both the quote and background color.
  https://github.com/sandhyakumari543/fcc-quote
- **Drum Machines - Built with Html, Css, JavaScript**
  Featuring 9 buttons that produce different audio sounds upon clicking.
  https://github.com/sandhyakumari543/Drum-Machine_js
- **Netflix Clone - Built with Html, Css**
  https://github.com/sandhyakumari543/Netflix-Clone
- **JavaScript Calculator - Built with Html, Css, JavaScript**
  https://github.com/sandhyakumari543/Javascript_Calculator
- **Library Management - Built with asp.net using C# , MYSQL**
  Develop a comprehensive library management system using ASP.NET with C# for robust back-end functionality, seamlessly integrated with MySQL to efficiently manage and organize library resources.
- **Data Analytics - Built with Python**

Internship

CloudyML
Start Date: 7-06-23
End Date : 7-08-23
Project : Data Analysis using Python
Description : During my internship at CloudyML, I undertook a comprehensive data analysis project focused on Swiggy restaurant data. The primary objective was to derive meaningful insights and trends to support strategic decision-making within the food delivery platform. Utilizing advanced data manipulation and analysis techniques in Python, I successfully navigated and interpreted the complexities of the dataset.

Certificate

1. Frontend Development - HTML - Issued by Great Learning Academy
2. Responsive Web Design - Issued by FreeCodeCamp
3. JavaScript Algorithms and Data Structures - Issued by FreeCodeCamp
4. Front End Development Libraries - Issued by FreeCodeCamp
5. Data Analyst Summer Internship - Issued by CloudyML
6. Frontend Web Development with React.JS & JavaScript Bootcamp - Issued by Microsoft Learn Student Ambassador

Declaration

I hereby declare that all the above information is true to best of my knowledge.
